**WATER RIGHTS
SALT LAKE**

Dear Mr. Fotheringham:

Due to the drought situation and the early high temperatures in our area, on behalf of our canal company, we request that we be allowed access to an early distribution of our water in the Woodruff Narrows Reservoir.

We feel this is necessary to make the best use possible of our water that we are allowed this year.

Please respond to President Douglas Hatch at the above address.

Douglas Hatch

Sincerely,
Douglas Hatch, President
